

WHERE MOST NEEDED

Because 100% of all gifts are used exclusively as designated, your gift will be used to meet critical needs facing Ethnos Canada, both overseas and across Canada.

MISSIONARY ASSISTANCE

Every Ethnos missionary has been called by God and is trusting the Lord for their financial needs. This is true whether they are serving at home or overseas, whether they are from North America, or a national missionary.

100% of all gifts are used exclusively as designated.

INDIGENOUS MINISTRIES IN CANADA

CHURCH PLANTING AMONG CANADA'S FIRST PEOPLES

Ethnos Canada is establishing thriving churches among the Indigenous people in Canada.

Church planting in these isolated communities is challenging and expensive.

Gifts to Ethnos Canada for Indigenous Ministries are used in the most strategic way to support the work of church planting in Canada's north.

A THRIVING CHURCH
FOR EVERY PEOPLE

Of the world's 6,500 people groups, 2,500 are still unreached. Ethnos Canada helps local churches mobilize, train and send missionaries to these people groups.

BIBLE TRANSLATION

With a gift of as little as \$35, you can make a big difference in Bible translations around the world. That \$35 pays for translating one verse of Scripture, literacy materials and Bible lessons into a previously unwritten indigenous language.

This provides the whole package of written materials that a church needs to disciple its people and reach out to others. Your gifts to this project help perpetuate the Church in people groups around the world.

MISSIONARY FLIGHT SPONSORSHIP

Ethnos Canada’s missionaries serve in remote areas of the world, and often the only way to reach those areas effectively is with airplanes and helicopters. Missionaries pay for the costs of flights that serve them and in many cases, especially for our national coworkers, the expense is too much to bear. Sponsoring flight costs enables missionaries to use aircraft as they need them and more effectively reach those who are still waiting for the gospel.

NATIONAL CO-WORKER EQUIPPING

Ethnos equips national co-workers around the world with the specialized skills needed to plant thriving churches cross-culturally.

This enables the Church to grow in regions of the world where foreign missions are illegal, extremely difficult, or even potentially deadly — and sometimes all three.
