One Second Counts is not responsible for damages, including but not limited to, the direct damage, accessories, consecutive, or indirect, arising from the use of products or information on the web site.

One Second Counts

Bear Safety

It's all about Deployment

Your Bear Spray Cradle can only be deployed by pulling it out from the top of the cradle. It will not easily pull out from the bottom or sideways from the cradle. Practice the motion of deployment each time you re-locate your cradle to new gear.

Assembly Tools

Flat head screw driver or coins

1

Thread the velcro through slot at the bottom of the mount with hook side up.

2

The velcro wraps around the mount and item to hold in a secure location.

3

Repeat step 1 for second slot on mount.

4

Attach cradle to mount with screws and nuts 16 possible positions for your comfort and needs.

5

6

Place base of bear spray into the bottom of cradle. Then snap the top of the can into the cradle.

Tripod

Walking stick

Backpack
