PURCHASE: 144 Toothbrushes

Premium Toothbrushes: \$0.93/patient

All Technique® Toothbrushes have the patented Quad-Grip® Thumb Pad which helps guide the hand to hold the brush at 45° so the bristles are properly positioned at the sulcus for optimal subgingival cleaning.¹

Technique® Deep Clean

Extremely Tapered Bristles clean 2.8 mm beneath the sulcus and reach 1.4 mm between the teeth²

Technique® Complete Care

Dome Trim® and raised bristles at the tip provide greater access to posterior regions and clean hard-to-reach surfaces

Technique® Sensitive Care

Dome Trim® and Ultra-soft bristles are gentle on gums

Summit®+

Extremely Tapered Bristles for deeper cleaning between teeth and below the gumline

ADULT

Select Toothbrushes: \$0.83/patient

Micro Tip®

Dome Trim® and Micro-feathered bristle tips contact the tooth surface to provide soft, gentle cleaning with minimized pressure

Super Tip®

Raised bristles at the tip provide greater access to posterior regions and clean hard-to-reach surfaces. Plus Tongue cleaner

Technique® Classic

Quad-Grip® and Dome Trim® bristle design

Dome Trim®

Dome Trim® bristle design to provide greater contact with tooth surface

ADULT

Kids' Toothbrushes: \$0.83/patient

Crayola™ Pip-Squeaks™

Ultra soft bristles on a narrow, tapered head - perfect for small mouths

Crayola™ Neon Marker

Unique angled bristle design cleans between teeth and removes plaque, raised tip bristles clean hard-to-reach posterior teeth

Monsterz Kids

Ultra soft Dome Trim® bristles, ergonomic handle (Ages 2+)

Monsterz Junior

Soft Dome Trim® bristles, ergonomic handle (Ages 5+)

Super Tip® Sub Compact

Raised Super-Tip® bristle design and head size is perfect for tweens

Technique® Kids'

Quad-Grip® and Dome Trim® bristle design

*Suction cup base holds the toothbrush upright which helps keep bristles clean and reduces clutter on the counter

GUM® brushes clean better beneath and between.*

Not all toothbrushes are alike in cleaning performance

Extremely Tapered Bristles (ETB)

Precision tapering enables the Extremely Tapered Bristles (ETB) to penetrate more deeply (2.8 mm) into the sulcus, along the gingival margin and interproximally. The upper 6 mm of the bristle is tapered to a rounded 0.02 mm end. Ordinary bristles have less than 0.5 mm tapered to 0.18 mm.

Technique® Kids'

Dome Trim® Bristle Design

Raised center bristles form a dome shape which has been shown in clinical studies to reduce gingival inflammation and bleeding.¹ It cleans better where periodontal disease starts.

The dome shape bristling structure helps promote the recommended 45° angle when using the modified Bass technique.

Bone Grafting Solutions Designed for Easy Placement

GUIDOR® easy-graft® CLASSIC
alloplastic bone grafting system

Once the coated granules of GUIDOR® easy-graft® are syringed into the bone defect and come in contact with blood, they change in approximately one minute from a moldable material to a rigid, porous scaffold.

- Designed for ease of use and predictability
- 100% synthetic and fully resorbable
- Ideal for ridge preservation and filling voids around immediate implant placements

This product should not be used in pregnant or nursing women.

PerioShield® Oral Health Rinse

It is **clinically proven** to help **reduce plaque build-up** and **bleeding gums** by up to **36%!**¹

Plaque-blocking Technology

Interferes with biofilm formation, making it easier to remove.¹⁻³

Indications for use

- GUM® PerioShield® Oral Health Rinse helps to remove and prevent biofilm build-up on teeth and gingiva that can lead to gingivitis.
- Inhibits biofilm formation in patients with gingivitis and serves as an adjunct to normal mechanical oral hygiene practices where this has proved inadequate.

Coats and Disrupts

GUM® PerioShield® Oral Health Rinse coats the teeth and gingiva to create an invisible protective shield. The formation of biofilm is disrupted, making it easier to remove.

Protects and Repels

GUM® PerioShield® Oral Health Rinse provides a positive charge which repels plaque from the tooth surface thereby reducing bacterial adhesion.

Post-Expansion

- Thin and easy to insert, even between the tightest contacts.
- Expands during use to clean more tooth surface.
- Multiple filaments and texturized fibers for exceptional cleaning.
- Gentle on gums and ideal for patients with tooth and/or gingival sensitivity and gingival recession.

SUNSTAR EXCLUSIVE

ButlerWeave® Dental Floss

- Unique woven design effectively removes plaque between teeth and below the gumline.
- The unique interlacing process produces a strong, smooth, shred-resistant floss.

Eez-Thru® Dental Floss

Compares to Glide®

- Non-stick floss glides easily between even the tightest contacts.
- Uses a special PTFE (polytetrafluoroethylene) material which slides effortlessly between teeth and below the gumline.
- Monofilament construction is exceptionally strong and shred-resistant.
- Satin-like finish is soft and gentle on gums.

Fine Dental Floss

- Thin, shred-resistant floss for cleaning between tightly spaced teeth and below the gumline.
- Special "S" twist fibers for both durability and spreadability to effectively remove and carry away plaque.

- 2 great flavors for adults and children:
Melon Madness and Bubble Gum

Item	Pkg
1217M 0.5 mL Tub - Melon Madness	36/box

Butler® Clear Dip® Solution

- Prevents fogging and image distortion on mouth mirrors.
- Pleasant tasting, non-toxic formula.
- Active Ingredient
- Especially great for heavy mouth breathers

Item	Pkg
716	16 oz bottle

It is perfect for working with a patient who is a mouth breather (and it seems just about every patient does that from time to time) but I find it most valuable when working with the ultrasonic scaler and the water sprays onto the mirror. When dipped in the Clear Dip, the water spray slides right off the mirror, and the mirror stays clear --visibility is not compromised. From a patient's perspective, it tastes good-- I have had patients comment on that flavored solution for the mirror-- they think it is something to make the mirror taste better! It is a win/win product for the hygienist and the patient. It is easy to use, it keeps the mirror clear and free of fog and water droplets so the hygienist has good visibility, and the patient is happy that the hygienist applied something to the mirror to make it taste better!

- Christel Koppel Autuori, RDH,

Oral Care Kits
