ALUMINUM PROFILE

RECESSED INGROUND PROFILE

DESCRIPTION

Stylish line of light. 2 meters in length. Made from high quality anodized aluminum. For protection against moisture, extrusion is to be sealed with silicone or sealant. For added protection, use IP68(waterproof) LED strip.

FEATURES

- Dot free frosted lens to pair with Luminiz LED strip
- Extrusion acts as heatsink, increasing the lifespan of LED strip
- Includes lens and end caps
- Ability to withstand heavy objects due to its heavy duty lens and rugged design

APPLICATIONS

Floor lighting, driveway lighting, walkway lighting, garage lighting, garden/landscape lighting
