MUSIC GROUP

Thank you for downloading Fallout Music Group's Shelter Series Balloons!

Our Shelter Series has been curated specifically for raising money for various charities, and we appreciate your contribution!

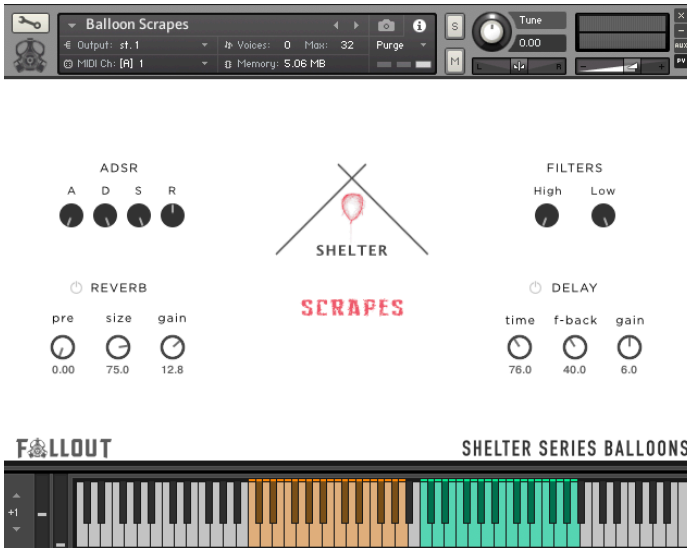

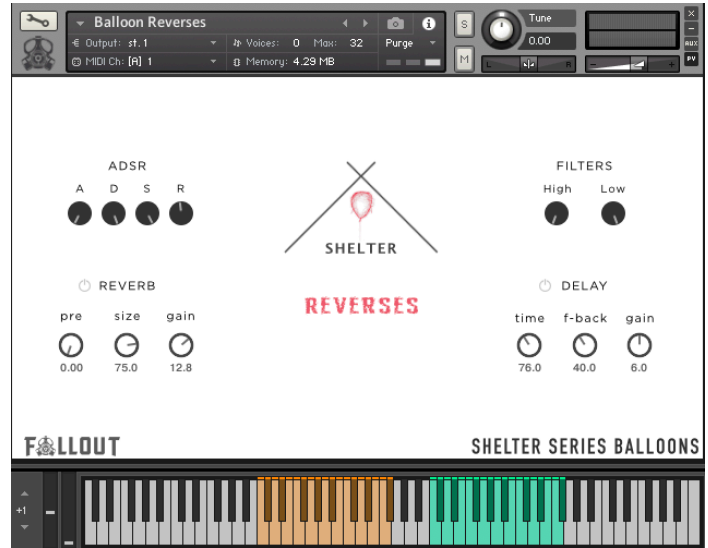

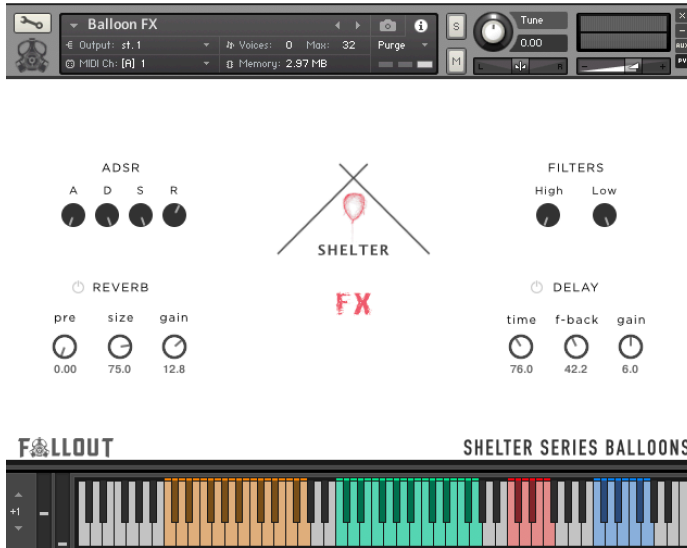

Shelter Series Balloons features include:

- Dozens of horror-centric and unique samples created from the mangling of balloons
- Raw samples along with wet versions of those samples on different key ranges to allow you complete flexibility
- Global FX, including high and low pass filters, delay and reverb
- ADSR controls
- All sources recorded at 24bit, 48k quality
- 3 Different Kontakt instruments, offering easy and fast loading of FX, Scrapes and Reverses

We hope you enjoy using this as much as we have enjoyed making it.

## The Interface

The interface is simple and easy to use, offering global ADSR, Filter and FX. Each of the instruments use the same interface controls:

**Global Features:**

- Reverb
- Delay
- ADSR
- High & Low Pass Filters
- Where available, Dry samples are playable on the Orange keys, while Wet samples are playable on the Green keys
