

Risk Assessment:

Activity: Water obstacle course

Updated 06/04/2024

Location: Piddinghoe Lake.

Notes: all Instructors will have a brief of operating rules.

- Its not about how fast but getting to the end, this will ensure students don't run.
- Ensure students wear BA's.
- Ensure students don't begin the course until the previous person is well clear.
- If it looks like a student is in trouble, all students must sit and stay where they are.

Hazard	To Whom	Preventative Measures	Instructor Notes
Drowning	students	Ensure all students are wearing BA's, safety cover on both sides on kayaks.	Carefully watch all students. Put yourself in a safe and visual position for all sections. Keeping clear of course with kayaks Ensure no student goes underneath the course.
Twists and cuts	students	Ensure the obstacle course is checked for anything sharp or solid	Keep a constant visual check on all connections.
Getting tangled	Students	Having a sharp knife close by	Keep a close eye on all users

Equipment requirements: sharp knife to cut anyone free
