How To Use

BITRONTIX™ INSTANT & PAINLESS FEET CARE WAND is an electronic pedicure tool used to remove dead skin and calluses from the feet. It is battery operated and comes equipped with two different speeds, low and high. It has two different head options, polishing and smoothing, that can easily be adjusted for your needs. It works by using a round foot file that rotates. When glided over the feet, the file works to remove dead skin and calluses, leaving your feet feeling smooth.

Introduction

BITRONTIX™ INSTANT & PAINLESS FEET CARE WAND is a streamlined device that offers a salon-quality pedicure in the safety of home. The Easy-Reach design lets users treat every angle, on both feet, with ease and it does all the work – removing and smoothing unsightly calluses, dry cracked skin, and rough areas. It delivers instant results, painlessly. Get the appearance of more youthful & healthy feet

It includes 2 roller heads: one fine roller for polishing and everyday maintenance and one coarse roller for smoothing stubborn calluses and dead skin. It comes with 1 handle, 2 roller heads and a USB charging cord that works with any wall adapter (wall adapter not included.) It has two speeds (low and high) allow for easy or more powerful maintenance. Ergonomic wand design for a more natural back-and-forth motion.
