LEAF BLOWER/VACUUM 40V - POWDPG7527

This cordless 40V leaf blower gives you the power and freedom of going anywhere in your garden to quickly gather leaves without unpleasant odours of a fuel device. To switch between blowing and vacuuming leaves, you only need to place the right nozzle on the POWDPG7527. The large 45L collect bag collects the shredded leaves (ratio 15/1). Moreover you hold the device firmly with his additional handle which can be adapted. The included shoulder strap assures extra comfort and demands less effort while taking care of large gardens, driveways, etc.

The Dual Power leaf blower/vacuum blows leaves at a maximum speed of 220km/h. A handy speed dial allows you to set the speed. The POWDPG7527 is equipped with a brushless motor so comfort and durability are guaranteed by a lower vibration and a motor without maintenance. 40V battery and charger are not included, but can be bought separately and are compatible with the whole Dual Power range.
