**TELESCOPIC CHAINSAW 40V - POWDPG75385**

Sawing branches in tree tops while remaining with both feet on the ground: this chainsaw from Dual Power makes it possible. The power tool is telescopically extendable up to a length of 240cm, so even the highest branches can be cut comfortably, without the need for a ladder.

The 40V chainsaw is equipped with a 250mm long bar that provides a cutting length of 240mm. This is sufficient for most sawing jobs around the garden. The high quality Oregon brand bar and chain provide the necessary durability.

The automatic chain lubrication and tool-free chain adjustment provide the necessary comfort.

**Separate battery and charger**

The battery and charger are not included. They are sold separately and are compatible with the whole Dual Power range.

**Which Dual Power batter is compatible?**

This 40V telescopic hedge trimmer is only compatible with the 40V Dual Power batteries.
