BRUSH CUTTER 40V - POWDPG7551

This powerful 40V brush cutter from Dual Power is a true all-rounder. It deals with high weed growth and overgrown grass, but also mows lawn edges or difficult angles. All you have to do, is replacing the cutting blade by the 5m long spool (both included). When using the brush cutter, you dispose of a working width of 25.5 cm. When choosing the grass trimmer, you work on 32 cm. With this cordless tool, you are able to mow or trim with no restriction of a cable and with a large freedom of movement. The double spool has a tap and go thread lengthening system. Simply tap the head on the ground and a new length of line is released.

By eliminating friction, the brushless motor works more efficient: you get more power while mowing, as well as a device with longer lifetime and less maintenance. Despite all that power, you only feel very little vibrations while working, because the 2-in-1 Dual Power tool features a vibration reduction. With the practical carrying belt and bike handle you are sure to work in an ergonomic way and to relieve back as well as muscles.

The 40V battery is not included. You buy it separately and it is compatible with the entire DUAL POWER range.
