HIGH PRESSURE CLEANER POWXG90410

This high pressure cleaner has a powerful 1800W motor for fast and thorough cleaning. It can deliver a high water flow up to 420l/hour at a maximum pressure of 140bar.

The high pressure cleaner has an automatic start/stop system. This means that the motor only works when the gun is activated. The result is an easy-to-use cleaning system that at the same time will save a lot of energy and water.

The POWXG90410 is an all-rounder that can count on a large integrated detergent tank of 750ml for use with soap or detergents. It also has a convenient 8m hose and a 5m electric cable. This provides a high flexibility and freedom of movement.

On top of that, the POWXG90410 comes with plenty of accessories. There is the spray gun with adjustable nozzle, a turbo nozzle, a patio cleaner and a lance extension. Each of them useful for a particular application.
