

Mineral Pots

14L Mineral Pot

HMWF-1402

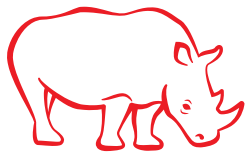

- Slow filtration through the 7 stages
- Compact and portable design.
- Filter Stages:
 - Stage 1: Ceramic Filter filters out all dirt, sand, bacteria and micro particles.
 - Stage 2 to 6: Granular Activated Carbon (GAC) and Multi-Mineral filters removes chlorine, heavy metals, pesticides and other chemicals.
 - Stage 7: Mineral Stone Filter contains nourishing minerals such as potassium, sodium, calcium, magnesium and other micro elements
- Includes:
 - Ceramic Filter
 - Multi-stage Filter
 - Mineral Stone
 - Magnetic Water Tap

24L Mineral Pot

HMWF-24L

- Slow filtration through the 7 stages
- Compact and portable design.
- Filter Stages:
 - Stage 1: Ceramic Filter filters out all dirt, sand, bacteria and micro particles.
 - Stage 2 to 6: Granular Activated Carbon (GAC) and Multi-Mineral filters removes chlorine, heavy metals, pesticides and other chemicals.
 - Stage 7: Mineral Stone Filter contains nourishing minerals such as potassium, sodium, calcium, magnesium and other micro elements
- Includes:
 - Ceramic Filter

Mineral Pot Spares

Ceramic Filter

HCE-S

- The ceramic filter filters all dirt, sand, particles and bacteria to ensure that your water is free from any harmful bacteria.
- The diameter is 0.2 micron (diameter of bacteria is 0.5 - 1 micron).

Multi-Stage Filter

HMS-5

- The filter provides you with clean and clear water, without unpleasant taste or odor.
- There are 5 Filtration layers:
 - Granular activated carbon: Used to absorb impurities and traps taste, dirt, dust, salt, chemicals, chlorine
 - Silica Sand: Enables the absorption of bad elements in water
 - Zeolite: Absorb certain harmful and unwanted elements from water such as harmful heavy metals such as mercury lead and chromium.
 - Mineral stone: It is composed of many health effective elements such as potassium, sodium, calcium, and magnesium.
 - Ion-Exchange Resin/Bio Ball: The impurity ions are taken up by the resin

Mineral Stone

HMS-1

- The andesite contains various nourishing minerals such as potassium, sodium, calcium, magnesium, and other micro elements which are essential for good health.
- Helps increase PH level producing healthy alkaline water
- Helps to sterilize and prevent secondary breeding of bacteria and other germs from stored water and preserves purity and freshness for your stored water.

Magnetic Water tap

HMWF-1402-T

- Water tap with a magnet - the magnetized water has free moving molecules which promote vitality & health
