

RO Membrane

4

- Reverse osmosis system
- Eliminates odours, improves taste
- Removes:
 - Contaminates (0.01 micron)
 - Heavy metals
 - Bacteria

RO System

Activated Coconut Carbon

5

- Last stage of the Reverse Osmosis system
- Eliminates odours and taste
- Removes:
 - Bacteria

Poly Prop Cartridge

1

- Ideal for pre-filtration
- Different sizes and weights
- Removes:
 - Dust and impurities
 - Rust

Granular Carbon Cartridge

2

- For use during main filtration
- Odour removal
- Removes:
 - Chlorine and chemicals
 - Organic matter
 - Pesticides

Carbon Block Cartridge

3

- Pre-filtration or pre-treatment
- Removes:
 - Taste of chlorine
 - Heavy metals i.e. lead, copper
