HANDHELD VACUUM CLEANER 20V - POWDP6030

This 20V handheld vacuum cleaner from Dual Power is easy and comfortable to use. With its 8kPa of suction power, this handheld vacuum is powerful enough to clean tables, slits and crevices, furniture and more.

The handheld vacuum cleaner is battery powered, so it is ideally suited for use in places without plugs or sockets, such as cars. The device can be operated comfortably and features an ergonomic soft grip handle.

The dust collection bowl has a capacity of 600ml. It is easy to empty and clean. The filter can be removed and cleaned as well. This ensures the device from functioning properly and keeps the suction power from diminishing.

Thanks to the accessories, a wide array of cleaning tasks is possible. The crevice nozzle can fit in tight spots where larger vacuum cleaners may not reach. The brush nozzle with rotatable brush is ideally suited for cleaning fabrics, like car seats or sofas. The extension tube ensures the user's comfort.

Separate battery and charger
The battery and charger are not included. They are sold separately and are compatible with the entire Dual Power range.

Which Dual Power battery to use?
This 20V handheld vacuum cleaner is compatible with both the 20V and 2x20V Dual Power batteries. The use of a 2x20V battery provides an even longer battery run time, compared to the use of a 20V version.
