## BISCUIT JOINER 40V - POWDP77100

This 40V cordless biscuit joiner from Dual Power is ideal for making blind wood joints. This is why this tool is suitable for do-it-yourself enthusiasts who want to make wood joints for kitchen cabinets, walk-in wardrobes and other pieces of furniture.

The cutting depth can be set to 6 different positions between 8 and 20mm. The cutting height is continuously adjustable up to 40mm. In addition, the angle is also easy to adjust, thus allowing to adapt this biscuit joiner to any task.

The powerful 40V motor provides sufficient power to work even on harder wood. Accidents are excluded because the saw blade only comes out of the tool when it is positioned on a workpiece and sufficient pressure is applied.

The soft-grip handle and the additional D-shaped handle ensure sufficient grip and control during cutting. The tool is also equipped with a vacuum cleaner connection. This guarantees a good view of the workpiece and a healthy working environment.

### Separate battery and charger

The battery and charger are not included. They are sold separately and are suitable for the entire Dual Power range.

### Which Dual Power batter is compatible?

This 40V biscuit joiner is only compatible with a 2x20V Dual Power battery.
