Switch Button F:
Bottom Right

Icon #: _____
 Text: _____

Instructions

There are 6 customisable buttons as seen in the figure on the right. Each button can be configured as, **Icon only** and **Icon with text** or **left blank**. Make sure to review all of the icons available (located in the bottom right of this document) and select wisely. In addition each button can also be configured to have a different RGB colour indicator/back light to suit different applications. For example the snowflake could be blue for Air conditioning.
Selecting an icon: Review the icons from list and choose a number (located below each icon) Fill in this number in the icon field under each switch location.
 A text label is available as an option as well. Simply fill in the Text field under each of the switch locations.
The text field is limited to 10 characters including spaces. Please pay attention to upper and lower case letters as what gets filled in is what will be etched.

Custom BYO icon use number 0

I agree that the information provided for this order has been check and is correct.
