We blend India's rich heritage with contemporary design, bridging the gap between East and West. We celebrate the complexity of modern identities, reflecting a global perspective in every creation.

Every year, Nicobar begins a new journey across the Indian Ocean, exploring the lands that touch its shores to dig deep for inspiration. We've journeyed to the teardrop isle of Sri Lanka, traced the path of the nomadic Banjara tribe along India's west coast and have been delighted by both Zanzibar and Madagascar in Africa, most recently, by the magic of Bali.

In a world that often overlooks the magic of discovery, Nicobar remains open to unexpected pops of whimsy, cherishing life's happy accidents. We are not just a brand; we're creating a modern Indian way of living, dressing, and looking at the world.

Who we are

MODERN INDIAN

We are inspired by journeys across the Indian Ocean and showcase that through a design vocabulary that's rooted in India and global in appeal – at home anywhere in the world.

MINDFULNESS

We believe in conscious consumption and strive to get a little better everyday, whether through better packaging or more thoughtful design.

DESIGN

We are a design-studio first and only design products we'd use ourselves. From inspiration through to inception, our designs are meant to fulfil purpose.

We've worked with incredible brands for their gifting needs.

**“We are a brand that is
conscious about our choices”**

The background is a white surface covered in a watercolor floral pattern. The pattern consists of various botanical elements: large, dark blue leaves with prominent veins; smaller, light blue flowers; green dragonflies; and clusters of small, five-petaled flowers in shades of orange and yellow. Scattered throughout are small, solid-colored dots in blue, green, and orange. The overall style is soft and artistic, typical of watercolor painting.

A watercolor illustration of lotus leaves and flowers. The leaves are large and fan-shaped, with prominent veins. They are rendered in various shades of green, from light lime to deep forest green, with some areas showing yellowish-green highlights. The flowers are in various stages of bloom, with petals in shades of pink and red. The background consists of vertical stripes in white and light grey. The overall style is soft and artistic, with visible brushstrokes and a slightly textured appearance.
