

International Freight Rates

We can freight wines to most countries – the exceptions being certain Middle Eastern Countries that ban alcohol, and a few with other restrictions. If your country does not appear here, please email us for a quote, or use the **add to quote** feature on our website.

Note that to remove Australian Taxes, please use the discount code **'overseas'** at checkout. That will effectively discount the wine by 23%

Also be aware the import country may have import taxes the recipient will have to pay on arrival.

We can ship to the US, with exceptions of a few states. We can also ship to China. Please ask for a quote.

It is desirable to ship in multiples of 12, as freight is prohibitive otherwise. Also, it is generally better to ship premium wines, as the Australian value-based tax that is removed can be large enough to cover the freight.

Margaret River Wine Centre (mrwines.com) can also arrange deliver of pallets or containers of mixed Margaret River Wines directly to Hotels, Restaurants or other importers. This wine is sent by ship, and freight rates are very reasonable, but delivery times can be months. Ring or email us to find out more.
