

## WOOD & METAL FINISHES

Thayer Coggin furniture offers a variety of wood and metal finishes to select from as options on our custom, built-to-order furniture. Below are the current TC wood and metal finishes. Our wood finishes are applied to maple wood. Items available for wood finish options are noted in their product descriptions with the phrase "available in any TC wood finish." For items such as Viceroy, Tighten Up, Cooper, Laid Back, Draper, Eggshell, Button Up, Archie and others with solid walnut frames these finishes are NOT applicable, rather we have three finishes for our items with walnut frames: natural walnut, black walnut and grey walnut. Your local authorized Thayer Coggin retailer partner will have samples of these wood and metal finishes in store.
