Connections

Your Optimus Gear® leash can be attached to your Defender Harness in three places or to D-Rings used on collars.

- Shoulder Buckle ⑨
- Rear Buckle ⑩
- Chest D-Ring ⑪
- Collar*

* The Optimus Gear® Leash is designed to be used with the same size classification of Defender Harness and an Optimus Gear® Collar. Other collars must have an equal diameter D-Ring to perform optimally.

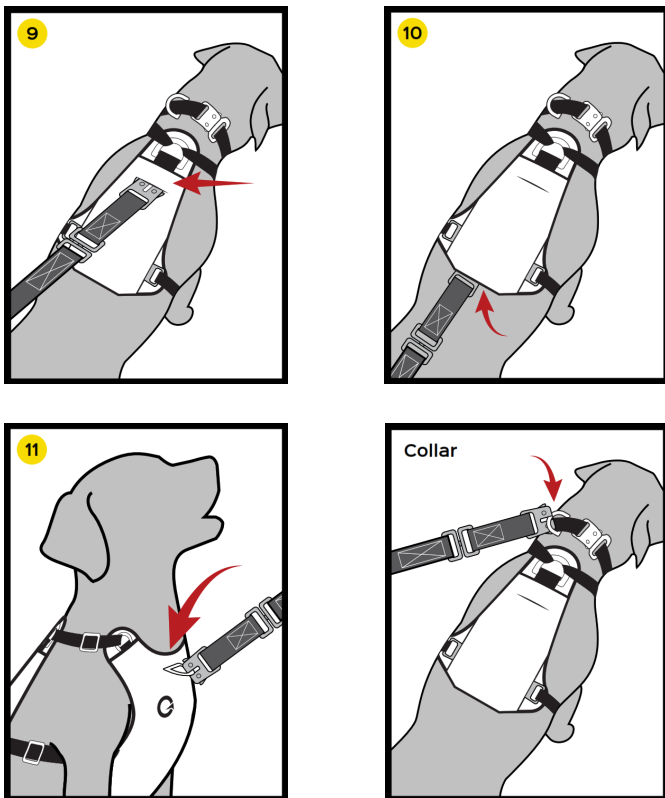

Figure 13 – Leash Connection Points

Suggested basic activities for each connection:

- Shoulder Buckle (walking, running)
- Rear Buckle (walking, running, pulling)
- Chest D-Ring (walking / obedience training)
- Collar D-Ring (walking)

Accessory D-Ring

The D-Ring ③ on your Optimus Gear® Leash can be used for:

- Attachment to multi-function buckle to make the leash wearable
- Optimus Gear® accessory attachment (ex. Poo Bag Roll Holder)
- Leash Addition attachment (walking multiple dogs, other activities)

POO BAG CLIP

The figures below show the method of securing a full poo bag to the poo bag clip

- Tie a knot in your poo bag and hang it on the poo bag clip (Figure 14).

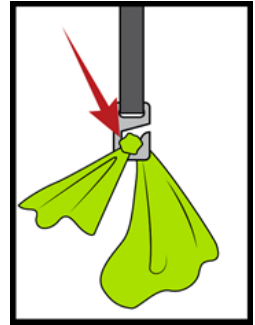

Figure 14

- Wind the bag around the poo bag clip as shown (Figure 15).
