

## CRASH RATED HARNESS

Our Defender Harness allows your dog to be quickly, safely, and comfortably buckled into a vehicle.

The Defender Harness has been engineered to withstand crash forces of up to 48 km/h or 30 mph!  
(As per FMVSS NO. 213)

Additionally, it seamlessly transitions from in your vehicle to your favourite activity.

## OUR GUARANTEE

Optimus Gear is a Canadian company that is proud to locally design, source and manufacture high quality products. We stand behind our products.

Our crash rated dog harness goes above and beyond in the world of pet safety.

We know that car accidents happen. If you are involved in an accident with your dog wearing The Defender Harness we will replace your harness free of charge\*.

\*refer to our website for our replacement policy.

## CANADIAN MATERIALS & MANUFACTURING

All of Optimus Gear's manufacturing is in Winnipeg, Manitoba. Supporting our local economy by creating jobs and promoting technical growth are core values of our business.

We are dedicated to continue to manufacture all of our products in Canada. Consequently, controlling our processes allows us to provide great customer services and the ability for unrivaled customization.

## VERSATILE ATTACHMENTS

Our Defender Harness is designed for your busy life. Its adaptability to fit your family's needs is limitless. Multiple attachment points allow you to keep control of your dog in and out of the car; allow your children to "walk the dog" while you maintain full control; even have your dog pull the kids in a wagon or sled. Whatever life throws your way, you are always ready.

We know using different harnesses, collars and leashes, for specific activities isn't realistic. To encourage an active and safe lifestyle we have spent years developing the most versatile harness for your dog in and out of the car. Ease of use and versatility ensure that the Defender Harness will be used whether it is a 5 minute or 5 day drive.
