## AWARD WINNING ARMAGH STREET

---

We're proud to have been involved in bringing Paragon Apartments in Christchurch to life, a project that has recently won several national-level architectural awards. This unique project is Christchurch's first base-isolated residential building, setting new standards for seismic resilience.

---

## AWARD WINNING ARMAGH STREET

---

Featuring 14 apartments across nine storeys, including double-level gallery and penthouse apartments, this building was quality-driven with luxury finishes and fixtures throughout - including a striking Neolith facade. This exterior cladding makes for a lightweight, zero maintenance yet beautiful aesthetic.

CDK's natural stone tiles and slabs also feature throughout all bathrooms and kitchens throughout the complex, elevating these spaces with stunning stone products sourced from around the world.

*Super White*

---

Led by the latest in interior trends, we've recently introduced new and timeless favorite stone options. Super White Dolomite is striking for its natural elegance, and is fast becoming the most sought-after natural stone this year. Grey veining adds depth and interest, while inspiring a sense of luxury. A beautiful alternative to white or grey marble, and right at home in contemporary kitchens.
