SAFETY PRECAUTION

- Read, keep and follow these instructions.
- Heed all warnings on the product and in the instruction manual.
- Fully understand user manual before use.
- For your safety, read and follow this manual carefully to ensure proper use of the product and avoid any danger or physical damage.
- Keep the product away from heat, humidity or dust to extend the service life.
- Avoid falling or crash. Avoid shaking the display screen heavily, otherwise it may damage the screen or cause fault.
- Do not disconnect the player during the formatting or transmission, or it may cause error.
- Do not disassemble the product by yourself. Do not use alcohol, diluents or benzene to clean the surface of the product.
- Do not use the product in areas which are prohibited from using electronics, such as a plane.
- Do not use the product when driving or walking in the street, for it may cause accident.
- The system software has no memory storage, This product is not water/humidity-proof.
- No one except a professional repair service unit is allowed to replace the battery, as an improper replacement may cause the battery to explode.
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
- Caution!
  Risk of Explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

Warning:

- Batteries (a battery pack or installed batteries) shall not be subject to excessive heat such as sunshine, fire or the like.

The product is built with an internal rechargeable battery: do not expose the product to excessive heat such as sunshine, fire or the like.

- Prolonged listening at high volume could lead to hearing damage.

- To prevent possible hearing damage, do not listen at high volume levels for long periods.

⚠️ If the sound pressure requirement is not required, no need this logo

Caution:

- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate this device.

Usage of controls or adjustments or performance of procedures other than those specified herein may result in hazardous exposure.

Recharge the battery when the device indicates that the battery is low.

It is highly recommended to charge the battery immediately when the device indicates that its charge is lower than 15%.

To prolong the life of the battery, it is NOT recommended to use the device when it is charging.

To prolong the life of the battery, consider recharge its battery at least once per month.

Ensure your player at low volume levels or power off before you leaving.

**RECYCLING**

Recycling
Processing of electric and electronic equipment at the end of their service life (applicable in member countries of the European Union and other European countries operating a selective waste collection system).

This symbol, affixed to the product or its packaging, indicates that the product must not be processed with household waste. It must be brought to an electric and electronic waste collection point for recycling and disposal. By ensuring the appropriate disposal of this product you also help in preventing potentially negative consequences for the environment and human health. The recycling of materials helps preserve our natural resources. For further information regarding the recycling of this product, please contact your municipality, local waste disposal centre or the store where the product was purchased.
