

A wooden cutting board is the central focus, resting on a light-colored surface. On the board, there is a slice of pizza topped with cheese and red onions, a whole lemon, and a glass of yellow beverage with a white straw and a lemon slice garnish. In the background, several other wooden cutting boards are leaning against a light blue wall. A white text box is overlaid on the right side of the image.

Take care!
Your board is made of wood,
a natural material which needs
special care to stay as nice as it
looks today.
Here are some instructions to
keep on enjoying your board.

- Clean with a damp cloth and never put your board in the dishwasher
- Use a mild detergent or fresh lemon juice to clean
- Let the board dry upright
- The engraving can fade when scrubbed clean
- Oil once every two months with some grapeseed, linseed or mild olive oil

~ Enjoy! ~
