

Gorgui

Model patented by Vallfirest Tecnologías Forestales S.L.

A versatile tool for all types of grounds and fuels.

Gorgui

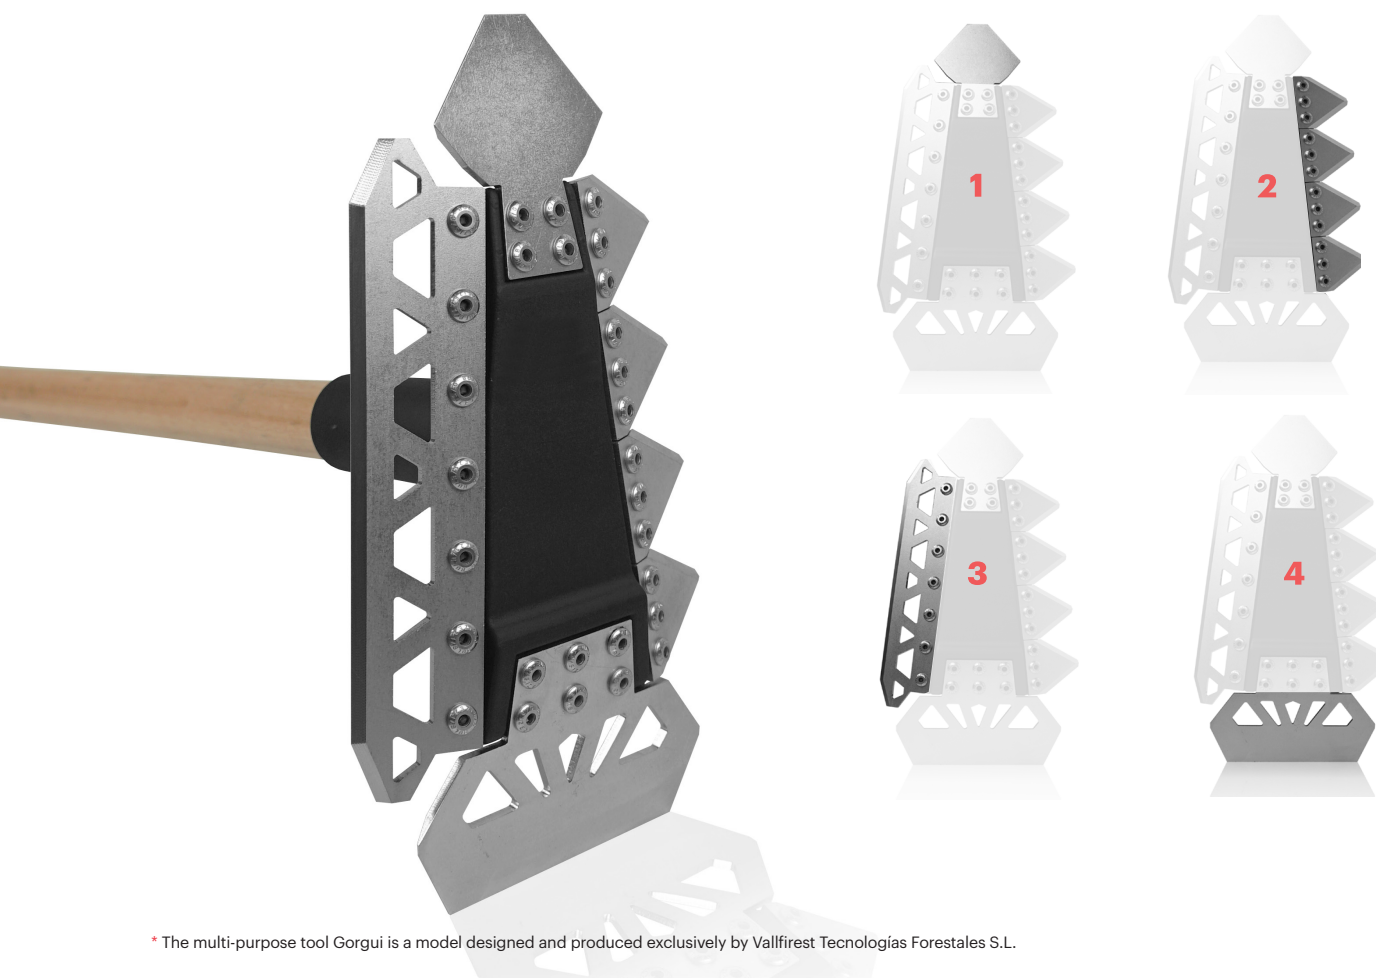

A versatile tool for all types of grounds and fuels

The multi-purpose tool **Gorgui** is designed for wildland fire fighting. It was created out of the experience and needs of the most advanced firefighting brigades in the use of manual tools. The main feature is the versatility on all types of ground with a combination of all the most commonly used tools for wildland fire extinction in one.

Multi-purpose

Four sides with replaceable blades work just as all the most commonly used tools for wildland fire extinction. The various blades are sharpened on the inside and outside for the greatest of efficiency with all the different tasks.

- Narrow hoe: Digging in resistant rocky terrain.¹
- Raking and cutting: Highly resistant tines. Less impact surface and greater cutting surface.²
- Dragging (McLeod): Easier stripping and dragging.³
- Wide hoe: Digging in soft organic terrain.⁴

* The multi-purpose tool Gorgui is a model designed and produced exclusively by Vallfirest Tecnologías Forestales S.L.

Technical specifications

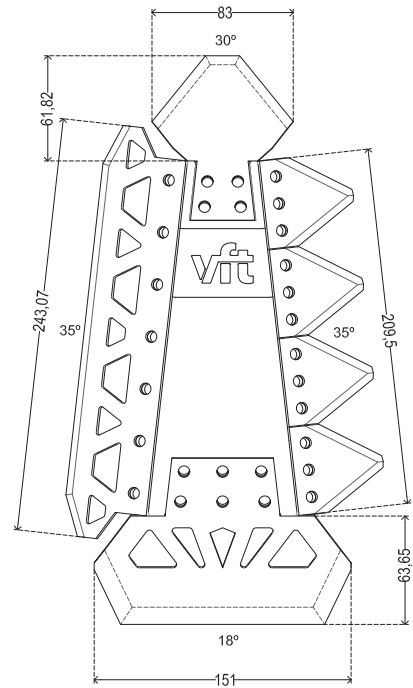

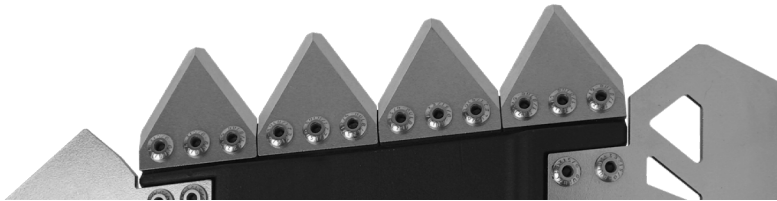

Head material	Hard aluminum + titanium.
Handle material	Eucalyptus wood.
Cutting blades	Individually replaceable, made with anti-wear 500 steel.
Dimensions	335 x 185 cm
Handle weight	800 g
Total weight	2.80 kg

1 Head and cutting blades

Head made of an aluminum and titanium alloy. Connects the cutting blades to the handle. The cutting blades can be replaced when broken or worn. Optimized cutting angles for easier use of each tool and to increase performance of the work.

Technical specifications

- General dimensions of the head: 335 x 185 mm.
- Head weight: 2 kg.
- Thickness of the cutting blades: 4 mm.
- Hardness of the cutting blades: 450 - 540 HBW.

2 Handle

An ergonomic eucalyptus wooden handle with different diameters for a short grip to dig and a long grip to cut or drag.

Technical specifications

- Weight: 800 g.
- Total length of the handle: 1.25 m.
- Maximum diameter of the handle: 35 mm.
- The handle is coupled to the head with a pressure and elastic pin-fixed head system.

3 Optional sleeve

The **Gorgui** sleeve to carry the tool on the back for free hands and anti-cut protection.

Technical specifications

- Material: 1000D Cordura.
- Adjustable nylon strap for carrying on the back.
