

FRESH COAT CERAMIC GRAPHENE

3-5 YEAR CERAMIC COATING DESIGNED TO SEAL AND PROTECT WRAPS.
STRONG HYDROPHOBIC PROPERTIES AND ENHANCED FINISH.
SAFE ON ALL WRAPS, GRAPHICS, PAINT, AND GLASS.

LOCK IN THE PROTECTION and enjoy 3-5 years of enhanced defense against the elements. Plus an amplified finish to your wrap, whether its gloss, satin, or matte. Fresh Coat's proprietary formula utilizes professional-grade ceramic graphene that's safe on paint, glass, plastics, metals, and more. Pairs well with Wrap Fresh Microfiber Detailing Towels.

BENEFITS

- Enhanced protection and hydrophobic properties on your wrap or paint.
- Drastically increase the lifespan and finish of your wrap.
- Up to 5 years of protection when well maintained.
- Two full-vehicle applications per bottle.*
- Safe on all wraps, graphics, paint, plastics, and glass.

DIRECTIONS

For full directions, visit www.wrapfresh.com

1. Deep clean the surface using a diluted alcohol solution.
2. Apply Fresh Coat one panel at a time.
3. Level the Fresh Coat using side A of the microfiber detailing towel.
4. Polish the flashed residue using side B of the microfiber detailing towel.
5. Repeat for all panels of the vehicle.

**“THE ONLY WAY TO MAXIMIZE
THE LIFE OF YOUR WRAP.”**
