

YCS PREMIUM 36 MIL GROUND VAPOR BARRIER

YCS PREMIUM 36 MIL GROUND VAPOR BARRIER

YCS 36-94-100 DRAIN MAT

The material coverage is 94" x 100' and covers roughly 800 sq ft.

This is the YCS premium 36 MIL Ground Vapor Barrier custom designed for crawlspaces. The padded felt bottom distributes water and soil gases, and it is virtually puncture proof. The high-tech coating on this product has a glossy finish and is very flexible (not stiff like other reinforced vapor barriers). The finish also provides excellent adhesion to the YCS Vapor Barrier Seam Tape. If you're looking for the most advanced ground vapor barrier system on the market this is it!
