To whom it may concern,

Our supplier supplies basic natural and generally edible oils to the cosmetic industry. They buy directly from manufacturers/refineries overseas.

Due to the non-toxic nature of the products, they would not be tested on animals for safety. In many cases they are not only used in cosmetics but also consumed as food for humans for thousands of years (Olive Oil for instance).

They are not aware of any supplier of theirs that is involved in animal testing, nor aware of any reason why they would even need to consider animal testing given the nature of the product. We believe our natural oils meet the spirit of the intent of the corporate standard of compassion for animals.

Subject to our terms and conditions of sales: Soap & More. affirms by fulfilling your order that it does not conduct or commission animal testing of any cosmetic and/or household products, including without limitation, ingredients or formulations of such products supplied to our customers. Valid through December 31, 2024.
