# Enjoy food again

Safe, delicious, and nutritious food  
for Australians with dysphagia

---

# 60% of carers are not happy with the texture modified food they are serving

---

Preparing puréed food for people living with dysphagia can be a real challenge. Particularly for carers.

Care Food Co's texture modified food is safe and nutritious – while also providing an enjoyable dining experience.

**Our meals are carefully crafted to ensure they always go down well.**

## Say hello to stress-free mealtimes

We know that the ultimate goal for you is to have happy, healthy clients enjoying life in their own home for as long as possible.

Care Food Co can help you deliver the best possible service to your clients.

# Raving Reviews

---

“ *The report is in! Richard is loving the meals! Can we please change our order to seven days a week. It's wonderful.*”

- GLENDA

---

“ *I can honestly say the simple switch to Care Food Co meals was largely responsible for the improvement in my Uncle's condition. He wasn't really eating or enjoying food before introducing Care Food Co meals. But, the minute we served him the first plate, he started eating regularly again and asking for more.*”

- CAROLINE

---

“ *Finding Care Food Co was like winning the lottery. For the first time in a long time, Mum is enjoying her food. The smile on her face made me so happy when I gave her the first mouthful. Thank you so very much!*”

- JEAN

---

“ *One word - WOW! My Mum is 77 and she just loves your food. Quick fast and DELICIOUS. And I tried the Polenta and it was amazing. So creamy and buttery to taste.*”

- DAPHNE
