

Introduction:

Thanks for purchasing Fieryred products for your vehicle! This 12 strands braided synthetic rope is an extremely safe, flexible and lightweight alternative to your steel cable. And it is actually a heavy-duty as it has a breaking capacity of 23,809 lbs which is definitely more than enough for most people. This rope is also covered by an UV and chemical-resistant nylon sleeve that can not only withstand regular wear and tear, overheat, sun exposure, abrasion and corrosion but also offer extraordinary durability.

Note:

1. Spool the synthetic rope onto your winch drum in accordance with the instruction.
2. Routine maintenance is required and it is highly recommended that the rope stay clear of water, sand and soil.
3. It is not recommended to rub the rope on sharp surfaces, rocks and trees, etc.
4. It is recommended to avoid sharp bends and twists during recovery.
5. Rope must be replaced when approximately 25% of the visible outer fibers exhibits abrasion.
