Sink Washing/Utensils	Code	Product	Mixing	Instructions
	STRIKE-610 	STRIKE: Manual Dishwashing Liquid	While filling first sink with 40L hot water, add 1 pump (30ml) of STRIKE Green Sink Detergent. 	For light dishwashing, simply place plates etc. into water and wipe. To remove heavy grease or baked-on food, fill with water and let soak for 5 minutes. Note: Wipe off heavily soiled or greasy items with paper towel before placing in sink. • Wash items in first sink with towel or pot brush. • If a rinse is required, rinse with hot water.
	SANI 	SANI: Sink Sanitiser Sachet	Fill sink to fill line with 40L of lukewarm (25-30°) water. Add 1 sachet of SANI per 40LT water. SANI yields the required 100ppm of available chlorine. 	Immerse the washed and rinsed equipment/utensils in the SANI solution for a minimum of 1 minute. Make sure all utensils are immersed in the water. Place on a clean and sanitised surface for air drying.
	PURIFY 	PURIFY: Sanitiser & Cleaner	Remove cap from small chamber & squeeze the bottle lightly. Solution will rise in small chamber. Fill spray bottle with 200ml PURIFY solution from supplied 1LT Auto measure bottle. Fill remaining amount with water for final solution. Insert a tighten trigger spray and turn nozzle to on position. 	Surface sanitisation (tabletops, benches, bathrooms and kitchen areas) Apply liberally to surface and wipe off with a clean Cleaner Future microfiber cloth for best results. Allow to air dry. Utensils and Equipment – Liberally spray with diluted purify on food contact surfaces and equipment then allow to air dry. Tip: If streaking occurs on wash off with warm water. Note: Black triggers are to be used for Purify solution
	BUFF-599 	BUFF: Floor Cleaner and Degreaser	Fill mop bucket with 15LT of water. Add 30ml (1 pump), 60ml (2 pumps) or 90ml (3 pumps) of BUFF depending on level of cleaning required. 	Place WET FLOOR sign in the cleaning area prior to mopping. DURING SHIFT: • Wipe up any spills and sweep area • Wet mop floor with mixed solution AT CLOSE: • Wipe up any spills • Apply BUFF floor cleaning solution and allow to penetrate soiled surface for 60 seconds • Mop up soiled solution • Scrub heavily if built up grease and grime present • Make sure solution has evaporated prior to moving WET FLOOR sign Note: Do not use Buff on marble or stone.
	GLIMMER 	Glimmer: Multipurpose Surface & glass cleaner.	Using Cleaner Futures 5LT pump supplied, pump 7 times into 750ml Glimmer bottle. Top of solution with water. 	1. Spray the solution directly onto the surface 2. Grab a clean cloth and start moving in a circular motion to get the surface squeaky clean 3. Buff to a polish 4. If you are not seeing the results, reapply solution with a new cloth. Note: This cleaner is the life of the party on glass and stainless-steel surfaces
	PURIFY 	PURIFY: Sanitiser & Cleaner	Fill spray bottle with 200ml PURIFY solution from supplied 1LT Auto measure bottle. Fill remaining amount with water for final solution. Insert a tighten trigger spray and turn nozzle to on position. 	• Spray PURIFY solution onto greasy surface or any surface that needs degreasing • Allow to sit for 30 seconds if surface is heavily soiled • Wipe dry with a clean and slightly damp cloth Note: PURIFY is a registered type B disinfectant. Meaning it kills bacteria on soiled surfaces.
	GRILL-655-750 GPS-4PK 	GRILL: Grill 750ml GRILL PAD SCOURER: 50(4)	None required comes in RTU solution. Note: Wear Safety glasses and gloves when using Grill. 	• Turn oven off (press back key) and remove cooking platter • Spray platter, oven chamber and internal door panel. Allow to sit for 5 mins • Remove stains with non-metallic scrub brush • Rinse internal surfaces with warm, clean water; wipe surfaces over again to avoid residue • Wipe dry with damp cloth/microfiber (avoid leaving water in bottom of oven) • Drain grease collection trap • Clean cooking platter by rinsing with warm water. DO NOT soak in dishwasher BAKED ON GREASE REMOVAL: Spray GRILL onto surface and allow to penetrate for approximately 5-10 minutes. Agitate and wipe off with cloth. TOASTER/FLAT GRILL: • Turn nozzle to on position and apply grill liberally to surface • Turn hotplate off and allow to cool to around 50 degrees • Surface should be warm but not full heat • Scrape food residues off then apply Grill neat • Leave wet to activate for around 10 – 15 minutes • Scrub with Cleaner Future Griddle pad then wipe clean with cloth • Rinse well with potable water
	BEV-1L 	BEV: Tower Drain Solution	Ready to use formulation. Loosen cap, then squeeze bottle to fill dosing chamber with 40ml of Bev solution. 	1. Remove cap from small chamber & squeeze the bottle lightly. Solution will rise in small chamber 2. Measure 40ml of Bev solution 3. Remove cap and pour dose directly down the drain 4. Perform this activity DAILY Note: Perform activity at start of shift

Cleaning Product Guide

Freezer/Coolers	Code	Product	Mixing	Instructions
	FREEZE954 	FREEZE	Ready to use formula provided. 	<ul style="list-style-type: none"> Remove any food from area to be cleaned Use the bottle & sprayer and apply directly to affected surface Let stand for approximately one minute then wipe off with a clean, damp mop or cloth. <p>Note: Make sure cloths are only slightly damp and not wet.
