

## Introducing Bold.

Bold is an anti-bacterial hand soap that is hard on the disinfect, yet soft on the hands. This mild, but highly effective hand soap has been created by Cleaner Future to help cleanse hands and protect you, right when we need it most. Containing both Bronopol and CMIT for biocidal action — meaning GTFO germs. It's a little Bold, but you need to be to do the job right.

## Key Benefits

- Soft on skin
- Suitable for all food areas
- Antibacterial action

## Sustainability

Cleaner Future aims to construct formulations that efficiently solubilize and disperse fats, oils and dirt, thereby minimizing the amount of cleaning product required to achieve a complete clean. This lightens our load on our sewer system and increases the rate and degree of biodegradation. We endeavour to use plant-based surfactants that originate from cropping. Where possible, we replace petrochemical solvents with plant-based oil seeds.

## Directions of Use

Can be used in any liquid soap dispenser. Apply generously through the palm of your hand, making sure to rub through fingertips.
