

Introducing Dart.

Dart is commercial grade disinfectant used for cleaning a variety of surfaces and amenities. This powerful, lemon scented bactericide, has been created by Cleaner Future to kill micro-organisms found on everything from table tops to floors. Dart means dead for micro-organisms.

Key Benefits

- Cleans & sanitises
- Contains quaternary ammonium compounds to assist with sanitising
- Pleasant lemon fragrance
- Multipurpose disinfect

Sustainability

Cleaner Future aims to construct formulations that efficiently solubilize and disperse fats, oils and dirt, thereby minimizing the amount of cleaning product required to achieve a complete clean. This lightens our load on our sewer system and increases the rate and degree of biodegradation. We endeavour to use plant-based surfactants that originate from cropping. Where possible, we replace petrochemical solvents with plant-based oil seeds.

Directions of Use

1:10 of water. For heavily soiled areas (fats & oils etc.) use a stronger solution. Mop over area and rinse off with warm water. 1:2 for optimal disinfection
