

Introducing Enzo.

Enzo Non-Rinse Floor Cleaner by Cleaner Future is a high-performance, all-in-one cleaner and sanitiser meticulously formulated for use on hard surfaces, including floors and drains. This powerful solution is expertly designed to maintain grout lines and reduce the risk of slips and falls, making it an ideal choice for food service establishments that utilise quarry, ceramic tiles, or other non-slip surfaces.

Key Benefits

- **Eliminates Grease and Enhances Safety:** Enzo effectively breaks down grease, reducing the risk of slips, trips, and falls, ensuring safer surfaces.
- **Minimises Cross-Contamination:** Thorough surface sanitisation by Enzo minimises the risk of cross-contamination.
- **Streamlined Floor and Drain Management:** Enzo simplifies your cleaning and maintenance routine, enhancing efficiency.
- **No-Rinse Formula Saves Time and Resources:** Enzo's no-rinse formula reduces resource consumption and saves valuable time.
- **Preserves Grout Lines:** Enzo ensures that your grout lines remain clean and well-maintained.
- **Energy-Efficient Cold Water Usage:** Use Enzo with cold water to reduce utility costs.
- **Fruit Fly Infestation Prevention:** Enzo eradicates breeding grounds for fruit flies in drains, reducing odours and infestations.

Sustainability

Cleaner Future aims to construct formulations that efficiently solubilize and disperse fats, oils and dirt, thereby minimizing the amount of cleaning product required to achieve a complete clean. This lightens our load on our sewer system and increases the rate and degree of biodegradation. We endeavour to use plant-based surfactants that originate from cropping. Where possible, we replace petrochemical solvents with plant-based oil seeds.

Directions of Use

1. Begin by promptly addressing any spills and sweeping the floor.
2. In your mop bucket, load the Hygiene Pro Plus auto-dilution system, which dispenses product automatically.
3. Apply Enzo using a mop, allowing it to remain on the floor until it effectively penetrates and addresses grease, oil, and other contaminants.
4. Employ a stiff-bristle broom to vigorously scrub the Enzo solution across the entire floor. For enhanced sanitisation, ensure a minimum of 5 minutes of contact time on the surface.
5. After scrubbing, mop or use a squeegee to guide the solution towards the nearest drain.
6. No rinsing required; Enzo's ongoing action continues to work, so you don't have to
