

Introducing Flare.

Flare is a powerful non scratch crème cleanser for cleaning hard surfaces. It contains a citrus scented mild abrasive that gently scours away dirt without scratching the surface. Flare cleans grease, oil and grime without scratching. Flare cleans enamels, tiles, stainless steel and chrome plate surfaces. Flare will NOT corrode metal, leave odours, effect skin or clothing. It also contains a blend of aonic and non-ionic surfactants for effective and efficient cleaning.

Sustainability

Cleaner Future aims to construct formulations that efficiently solubilize and disperse fats, oils and dirt, thereby minimizing the amount of cleaning product required to achieve a complete clean. This lightens our load on our sewer system and increases the rate and degree of biodegradation. We endeavour to use plant-based surfactants that originate from cropping. Where possible, we replace petrochemical solvents with plant-based oil seeds.

Cleaner Future maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Cleaner Future recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
