

Introducing Glimmer.

Glimmer is a super concentrated window and glass cleaner. It is commonly used through the Cleaner Future auto dosing system. It is 3 times stronger than your regular which means less chemical being used and powerful spray and wipe action. This solution has been created by Cleaner Future to remove stains, grease and those ugly finger marks from glass and stainless steel.

Key Benefits

- Highly concentrated window cleaner for use in auto dilution system
- Not flammable formula
- Non streaking
- Not classified as dangerous good
- Perfect through auto dosing system

Sustainability

Cleaner Future aims to construct formulations that efficiently solubilize and disperse fats, oils and dirt, thereby minimizing the amount of cleaning product required to achieve a complete clean. This lightens our load on our sewer system and increases the rate and degree of biodegradation. We endeavour to use plant-based surfactants that originate from cropping. Where possible, we replace petrochemical solvents with plant-based oil seeds.

Directions of Use

For cleaning glass spray diluted. Wipe using soft lint free cloth. Polish surface until streak free and dry.
For stainless steel use undiluted, spray onto surface and wipe dry and clean with a cloth.
