

Introducing Purify.

Purify is a highly concentrated food grade sanitiser and cleaner. Purify kills 99.99% of bacteria, including Coronavirus, SARS-CoV-19, salmonella, E.coli, staphylococcus, enterococcus & p.aeruginosa. Purify can be included as part of the cleaning and infection prevention control process across multiple settings. Purify is a super concentrated, industrial-strength degreaser/cleaner.

Key Benefits

- Formulated with Third generation QACs, providing increased biocidal activity and lower toxicity to the end user
- Contains NO alcohol or peroxide
- 100% Biodegradable
- Made from plant-based surfactants

Sustainability

Cleaner Future aims to construct formulations that efficiently solubilize and disperse fats, oils and dirt, thereby minimizing the amount of cleaning product required to achieve a complete clean. This lightens our load on our sewer system and increases the rate and degree of biodegradation. We endeavour to use plant-based surfactants that originate from cropping. Where possible, we replace petrochemical solvents with plant-based oil seeds.

Directions of Use

Surface sanitisation (tabletops, benches, bathrooms, and kitchen areas): apply liberal to surface and wipe off with a clean Cleaner Future microfiber cloth for best results.

Sink sanitisation: (50 atomised sprays) into and around sink. Let sit for 2 minutes, then fill up with warm water and drain.
