THE
brightside

BY NINE YARDS

a better coffee world.

We established Nine Yards Coffee in 2010 as a specialty coffee roaster. Our purpose is to provide coffee that is grown conscientiously, sourced seasonally, & roasted with care on the Northern Beaches.

How good would it be knowing that every coffee we consume is grown sustainably? That the workers weren't exploited nor is a child who should be at school? That the biodiversity at the source was unharmed & the people that grew it for us are happy & from thriving communities. These are the real hidden issues in the coffee industry, primarily in commodity coffee. The majority of coffee (approx. 90% of all the coffee grown) on the market is commodity coffee.

Nine Yards is part of the specialty coffee industry. We are committed to a better coffee world where everyone is respected & treated fair. **Thank you for choosing Nine Yards, we hope you enjoy the coffee & continue to drink responsibly.**

coffee
