PRODUCT CARE

Velvet

- If the garment has a stain, gently brush the velvet around the area of the stain with a soft clothes brush or lint free cloth to try and remove it. ...
- If the stain is still visible, mix some washing-up liquid with warm water and whisk until it forms a good amount of suds.

Metal

For metal care, use a dry or lightly dampened soft cloth. For heavily soiled metal, clean with mild soap and water. If using a damp cloth, dry with a new cloth immediately after.

Important things to remember:

- For best results, use a microfiber cloth
- Clean metal frequently. Soiled metal may become corroded.
- Do not use glass cleaner to clean metal.
