Walnut

# PRODUCT CARE

## Veneer

Use a soft and slightly dampened cloth to clean veneer furniture. Follow with a clean, dry cloth immediately for best results. To repair scratches to veneer, apply a colorless wax. Test wax on a small inconspicuous area first before applying to the rest of the wood.

## Important things to remember:

- Do not use chemical bleaches.
- Do not use glass cleaner.
- Keep veneer away from pets as their bodily fluids may cause damage, or they may scratch finish.
- Avoid contact with acidic liquids (e.g. sodas, vinegar, acidic cleaners) to prevent damage.

## Stainless Steel

To remove surface stains, use stainless steel cleaner or glass cleaner with no ammonia. Wipe the stainless-steel surface clean with a cloth dampened with the solution then use a clean cloth to dry the surface completely.

#### Important things to remember:

- Always use a soft, dry cloth to finish and dry stainless steel
- Cléan stainless-steel at least once every 60 days.
- Keep the bases of chrome polish/ finished products away from pets as their bodily fluids may cause damage.
