

DESIGNER

Marcelo Ligieri

There is no limit to what inspires me while designing. Modern design is practical and straight-forward yet flexible and organic. As furniture is an extension of oneself, I feel a responsibility to reflect the modern image in all its glory.

PRODUCT CARE

Brazilian leather

Clean dirt or stains on genuine leather with a clean cloth that has been lightly dampened with leather cleaning solution. Follow with a dry, soft cloth for best results. In order to maintain and upkeep leather make sure every 60 days to apply leather protector. This process helps keeps the moisture in the leather.

Important things to remember:

- Leather will crease, wrinkle, and stretch with regular use. This is normal for all leather products.

Protect your leather by covering your windows with blinds and curtains as sunlight can cause discoloration.

Fabric

Vacuum fabric at least once every 60 days or consider hiring a professional company to care for your fabric furniture. In the event of a spill or a stain, clean the affected area immediately by dabbing with an absorbent cloth dampened with warm water and a tad of mild soap.

Important things to remember:

- Follow specific fabric care instructions included on your furniture label.
- Turn fabric pieces (for example, couch cushions) to avoid excess wear on either side.
- Fluff fabric pieces regularly to avoid lumps.
