PRODUCT CARE

Veneer

Use a soft and slightly dampened cloth to clean veneer furniture. Follow with a clean, dry cloth immediately for best results. To repair scratches to veneer, apply a colorless wax. Test wax on a small inconspicuous area first before applying to the rest of the wood. Important things to remember:

- Do not use chemical bleaches.
- Do not use glass cleaner.
- Keep veneer away from pets as their bodily fluids may cause damage, or they may scratch finish.
- Avoid contact with acidic liquids (e.g. sodas, vinegar, acidic cleaners) to prevent damage.

Metal

For metal care, use a dry or lightly dampened soft cloth. For heavily soiled metal, clean with mild soap and water. If using a damp cloth, dry with a new cloth immediately after. Important things to remember:

- For best results, use a microfiber cloth.
- Clean metal frequently. Soiled metal may become corroded.
- Do not use glass cleaner to clean metal.
