PRODUCT CARE

Lacquer

Use a dry, soft cloth to dust lacquer furniture. For heavily soiled furniture, use a mild mixture of soap and water—only do this sparingly. Too much soap or using soap too frequently will ultimately damage the lacquer finish.

Important things to remember:

- Always wipe in the direction of the grain.
- Do not use furniture polish as this may damage lacquered furniture.
- Do not use alcohol products, as this may dissolve the lacquer finish.
- Wipe up any spills immediately. Prolonged exposure to colored liquids can stain furniture.

Stainless Steel

To remove surface stains, use Stainless Steel cleaner or glass cleaner with no ammonia. Wipe the stainless-steel surface clean with a cloth dampened with the solution then use a clean cloth to dry the surface completely. Important things to remember:

- Always use a soft, dry cloth to finish and dry Stainless Steel
- Clean stainless-steel at least once every 60 days.
- Keep the bases of chrome polish/finished products away from pets as their bodily fluids may cause damage.
