PRODUCT CARE

Stainless Steel

To remove surface stains, use stainless steel cleaner or glass cleaner with no ammonia. Wipe the stainless-steel surface clean with a cloth dampened with the solution then use a clean cloth to dry the surface completely. Important things to remember:

- Always use a soft, dry cloth to finish and dry stainless steel
- Clean stainless-steel at least once every 60 days.
- Keep the bases of chrome polish/finished products away from pets as their bodily fluids may cause damage.

Glass

Use either a lint-free towel or a simple paper towel and dampen with high-quality glass cleaner. Wipe dry with a fresh paper towel after cleaning to reveal a streak-free shine. Important things to remember:

- Never use glass cleaner on anything other than glass.
- For heavily soiled glass, clean glass with a wet cloth before using glass cleaner.
