PRODUCT CARE

Lacquer

Use a dry, soft cloth to dust lacquer furniture. For heavily soiled furniture, use a mild mixture of soap and water—only do this sparingly. Too much soap or using soap too frequently will ultimately damage the lacquer finish.

Important things to remember:

- Always wipe in the direction of the grain.
- Do not use furniture polish as this may damage lacquered furniture.
- Do not use alcohol products, as this may dissolve the lacquer finish.
- Wipe up any spills immediately. Prolonged exposure to colored liquids can stain furniture.

Acrylic

Stick with micro-fiber type of cloth. Avoid ammonia-based products, like Windex or other home glass cleaners, because they contain harmful chemicals that will damage the surface leaving it cloudy looking. Soapy water is the safest and most effective cleaning solution for acrylic
