PRODUCT CARE

Italian leather

Clean dirt or stains on genuine leather with a clean cloth that has been lightly dampened with leather cleaning solution. Follow with a dry, soft cloth for best results. In order to maintain and upkeep leather make sure every 60 days to apply leather protector. This process helps keeps the moisture in the leather.

Important things to remember:

- Leather will crease, wrinkle, and stretch with regular use. This is normal for all leather products.
- Protect your leather by covering your windows with blinds and curtains as sunlight can cause discoloration.

Stainless steel

To remove surface stains, use stainless steel cleaner or glass cleaner with no ammonia. Wipe the Stainless-Steel surface clean with a cloth dampened with the solution then use a clean cloth to dry the surface completely. Important things to remember:

- Always use a soft, dry cloth to finish and dry stainless steel
- Clean Stainless-Steel at least once every 60 days.
- Keep the bases of chrome polish/finished products away from pets as their bodily fluids may cause damage.
