Sewing Thread rPET

100 % recycled polyester

EN

10 years of recycled sewing thread

Because we love nature

Beautiful sewing in harmony with nature: our quality rPET sewing threads make it possible, because they are made from 100 % recycled PET bottles.

As early as 10 years ago, A&E Gütermann was the first sewing thread manufacturer to develop and present a recycled sewing thread for end users. With our rPET sewing threads we have come a big step closer to the desired harmony of efficiency and ecology. As a global player we have created sustainable value, take responsibility for our environment and conserve natural resources.

No matter whether for clothing or accessories – sustainable sewing is possible in outstanding quality. The rPET sewing threads are also produced with Micro Core Technology®, the unique microfilament-based spinning process – Made in Germany.

nature

MICRO CORE TECHNOLOGY®

Around 1,000 m of Sew-all Thread rPET or 300 m Top Stitch rPET sewing thread are produced from just one PET beverage bottle!

1.000 m

Be responsible for the environment – conserve natural resources! The Sew-all Thread 100 m rPET and Top Stitch 30 m rPET are the sewing threads from Gütermann creativ made of 100 % recycled polyester.

The raw material for these environmentally-friendly threads is provided by recycled beverage bottles made of 100 % PET (polyethylenterephthalate). The collected PET bottles are washed in different stages, shredded into so-called flakes and melted.

The microfilaments that are obtained from the granulate then form the basis for production of the sewing threads.

The special advantages of the sewing threads made from rPET lie in the recycled raw material. It conserves the environment and saves natural resources.

Thanks to the Micro Core Technology® environmentally-friendly sewing threads with excellent sewing properties can be produced with the existing production facilities and processes.

The reels for the sewing threads made from rPET are made of 100 % polystyrene (PS) and can be disposed of with the separated household waste, and in this way are supplied to the recycling loop.

Sewing Thread

Sew-all Thread rPET

Thickness	No. 100	Art. 723860
Material	100 % recycled polyester	100 m 166 shades
Care		
Needle	Universal Needle	
Needle size	NM 80 – 90	

Product

- Micro Core Technology® – Made in Germany
- Thickness No. 100
- Sew-all Thread made from 100 % recycled polyester
- Sewing with the sewing machine and by hand

Application

- Closing and backstitch seams
- Fine ornamental stitches and decorative seams

Fabric recommendation

- Light and heavy to medium-weight fabrics and material
- Light and heavy to medium-weight clothing fabrics
- Light and heavy to medium-weight decorative fabrics
- Knitwear

Top Stitch rPET

Thickness	No. 30	Art. 723665
Material	100 % recycled polyester	30 m 20 shades*
Care		
Needle	Universal Needle	
Needle size	NM 100 – 120	

Product

- Micro Core Technology® – Made in Germany
- Thickness No. 30
- Top Stitch made from 100 % recycled polyester
- Sewing with the sewing machine and by hand

Application

- Closing and backstitch seams
- Ornamental stitches and decorative seams
- Manually stitched eye buttonholes

Fabric recommendation

- Heavy to medium-weight fabrics and material
- Heavy to medium-weight clothing fabrics
- Heavy to medium-weight decorative fabrics
- Leather and synthetic leather
