# TERRA SUMMER

OUTDOOR LIVING PRODUCTS

### **Fixed Screen**

The Fixed Screen offers extreme flexibility to cover various outdoor space openings to protect you from the elements. It is designed to be easy to install. A highly resistant material that retains tension over a long period of time. Combine it with another Terra Summer products to create a highly homogeneous and consistent look and feel.

### **Key Features**

100% aluminum structure for durability and easy maintenance

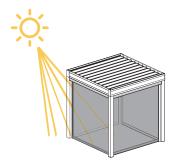

Protection against sun, wind and insects

System can cover up to 16' wide x 10' high without crossbar

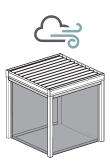

Sleek and modern design

Tailor-made production

Fits perfectly with other Terra Summer products or any existing structure

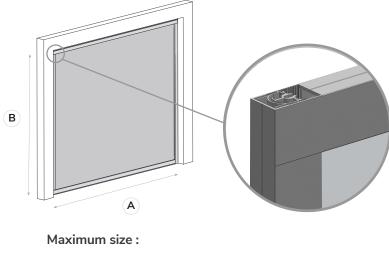

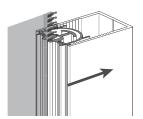

#### **System Operation**

The Fixed screen consists of an aluminum frame installed around the periphery of the opening and which a bug resistant screen is fitted.

The aluminum frame consists of a tension and retention system that allows the fabric to be easily adjusted and kept taut over time.

A - Width : 16' B - Height : 10'
