

Hobby Heaven Tabletop Wargames Bases Template

Using this document you can quickly determine the exact base type required for your model.

How to use:

- Prepare your model,
- Select the page in the template and the corresponding base size,
- Print the page in the template and the corresponding base size, using a home printer on plain paper (A4 size) and check how the model fits into the template.
- Use the original scale of the document and do not resize it to get the correct dimensions.
- TIP. The inner base line is the boundary of the main base plane. The outer line is the boundary of the bottom edge of the base. All bases extend downwards (unless otherwise indicated). So follow the inside line to determine if your model will fit on the type of base you have chosen.

For more instructions and the entire blog on basing, follow this link:

www.hobbyheaven.org

Benefits:

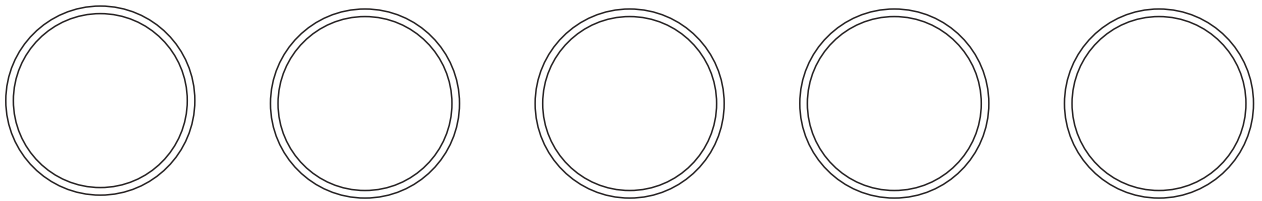

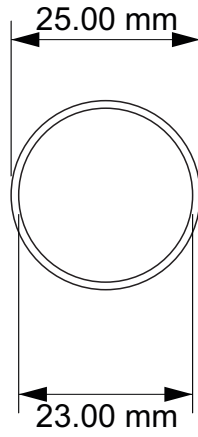

- You can check the exact dimensions of the base and how it fits the model even before you buy the bases. This can save you time, nerves and money.
- The template is compatible with most of the best known tabletop wargames.
- The tool is completely free and you can distribute it and use it for your personal purposes. Please do not change it without our permission or remove the watermarks.
- This template uses the exact dimensions taken from tabletop wargaming bases from the most popular manufacturers. The template is a live version and will be updated with all types of bases available on the market.
- Is there anything missing? Let us know at tabletopdb@gmail.com.
