

WIL95 Portable Telephone Amplifier

Go With UltraClear™ Cordless Compatibility.

The WIL95 Portable Telephone Amplifier is designed for use with most corded home or office telephones with the dial pad located on the telephone base. Simply connect the WIL95 to your existing corded telephone and your conversations become LOUDER and CLEARER. The WIL95 will automatically switch on every time you lift the handset and switch off when you replace the handset back to the base.

Clear Features

- No need to replace your existing telephone
- Powered by AC adapter or 9-volt battery (both included)
- Separate volume and tone controls with slider movement for easy adjustment
- 30 dB adjustable amplification with the slider controls plus a 10 dB 'Boost' button for occasional added amplification
- Universal telephone compatibility dial works with just about any phone with a modular connector

Additional Features

- Best sound quality
- UltraClear™ Sound-Clarifying technology allows you to "shape" sound to match your hearing needs
